DETAILED ACTION***Drawings***

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the an evaporation system for introducing or reintroducing collected liquid to a chamber interior space for conversion into steam inside the chamber interior space, an evaporation system for introducing or re-introducing collected liquid to a chamber interior space for conversion into steam inside the chamber interior space, wherein the evaporation system comprises a pump to direct collected liquid into a kiln chamber for heating to effect evaporation, an evaporation system for introducing or re-introducing collected liquid to a chamber interior space for conversion into steam inside the chamber interior space must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-19, 26, 27, 28 and 29 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 1 refers to “an evaporation system for introducing or reintroducing collected liquid to a chamber interior space for conversion into steam inside the chamber interior space” which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 26 refers to “an evaporation system for introducing or re-introducing collected liquid to a chamber interior space for conversion into steam inside the chamber interior space, wherein the evaporation system comprises a pump to direct collected liquid into a kiln chamber for heating to effect evaporation” which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 28 refers to “an evaporation system for introducing or re-introducing collected liquid to a
